FABRICATIONS**

RECYCLED BRUSHED HACCI

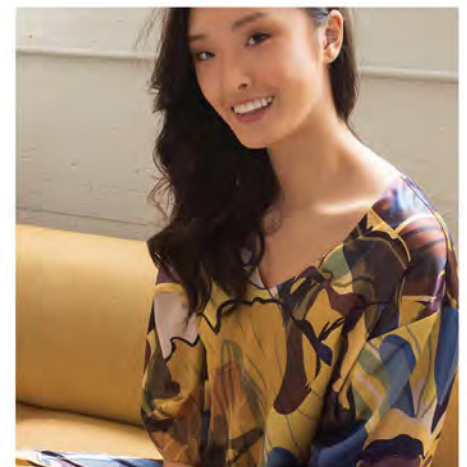

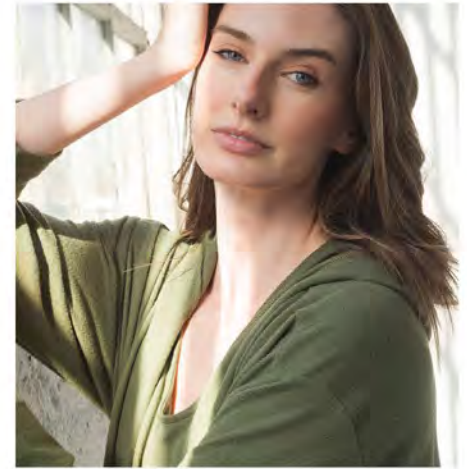

- Designed with recycled polyester and hacci brushed knit fabric
- Recycled polyester made from recycled materials
- Production process uses post-consumer waste such as plastic bottles and spins plastic chips creating polyester fibres
- Hacci knit fabric designed for softness and fuzzy comfort
- All breathable, warming and lightweight

COTTON MODAL SPANDEX

- Modal is a type of rayon made from beech tree fibres
- Cotton and modal are natural fibres and are essential for sleepwear
- Designed with breathability properties to regulate body temperatures and prevent discomfort during sleep
- Rayon fibres typically require less water and energy when processed
- Use of both cotton and modal fibres impact the environment by improving the manufacturing process, this uses less energy, minimizes waste and creates a true commitment to natural and renewable resources

RECYCLED SATIN PROGRAM

- Recycled satin is made from post-consumer waste
- Satin uses recycled polyester or other recycled fibres to help reduce the overall carbon footprint of the fabric vs traditional satin
- Recycled satin helps divert plastic and textile waste from landfills

BCI COTTON WAFFLE PROGRAM

- Designed with BCI cotton which offers several benefits
- BCI promotes more sustainable farming practices and reduces use of pesticides and water consumption
- BCI emphasizes fair labour practices, ensuring that workers in the cotton supply chain are treated ethically and work in safe conditions
- All high quality fabrication, with durability, breathability and comfort

TENCEL™ LENZING MODAL RECYCLED POLY SPANDEX

- Fabric combination of comfort, functionality and sustainability
- Recycled polyester component in the blend supports practices by utilizing post-consumer materials and reducing the need for new resources
- Naturally breathable fabric designed for airflow and moisture wicking which contributes to a comfortable and cool sleep environment

BRUSHED POLY JERSEY RECYCLED

- Soft and comfortable with eco-friendly recycled materials
- Repurposing post-consumer waste to create recycled polyester for an eco-friendly alternative
- Moisture-wicking, soft with a brushed finish and comfortable
- Easy care fabrication for less washes and easy maintenance
