LENZING™ ECOVERO™ RAYON / SPANDEX

JANUARY 10 START SHIP DATE

BEING RESPONSIBLE

Sustainability

THE SPECIAL FEATURES OF LENZING™ ECOVERO™

LENZING™ ECOVERO™ fibers are obtained from certified, renewable wood sources in an ecologically responsible production process in compliance with high environmental standards. Thus, LENZING™ ECOVERO™ fibers contribute to a sustainable lifestyle and a clean environment. With our fibers, we strive to offer more benefits to our customers and meet consumers' expectations for sustainable products.

BIODEGRADABILITY

Our LENZING™ ECOVERO™ cellulose fibers are biodegradable and compostable. They can return completely to nature, which means no harm is done to nature and our waters are kept clean.

VERSATILITY

LENZING™ ECOVERO™ fibers are also available in a black version, for example, to increase versatility in product creation.

TRANSPARENCY

Lenzing's fiber identification system enables LENZING™ ECOVERO™ viscose fibers to be reliably identified in the final product, even after long textile processing and conversion steps through the value chain.

LENZING™ ECOVERO™ Fibers Are 100% Biodegradable In:

COTTON MODAL PRINTS

JANUARY 10 START SHIP DATE

BEING RESPONSIBLE

Sustainability

THE SPECIAL FEATURES OF MODAL

Modal fabrication is highly sustainable as it minimizes resource consumption and waste generation. Through efficient digital modeling and on-demand production, it optimizes material usage, reduces stockpiling, and lowers transportation costs. It also promotes the use of eco-friendly materials. Overall, modal fabrication offers a greener and more sustainable manufacturing solution.
